

Placement for the academic year - 2013-14

Activities of Career Guidance and Placement Cell: 2013-14

The placement team of St. Philomena's College believes in strengthening the Education - Industry relationship. The placement season this year took off with great spirit amongst the students. We have had a record number of registrations for the various drives and the attendance too has been ecstatic. This season we went a step ahead by modernizing the recruitment process by launching an official website (<http://philosplacement.weebly.com/>) with the help of a final year B.A. student Mr. Bhargava Reddy. Through this website we communicate to the students for their registrations and further directions. The response has been overwhelming as the students could register even while at home.

St. Philomena's College is very popular in the corporate circle for recruiting fresh talent and this year we've had the likes of Wipro Technologies, IBM, Northern Trust Bank, Ernst & Young, South Indian Bank, Goan Institute of Communicative English. The recruitment process is yet in motion with many other companies in line. Seven of our students got selected in Wipro Technologies, eighteen as Practitioners for voice process in IBM, one as Analyst in Northern Trust Bank, three as executives in SysInformation Healthcare Pvt. Ltd., two as Probationary clerks in South Indian Bank, seven as English Language Trainers in Goan Institute of Communicative English. We are hopeful that a few more companies who are expected this season will hire more talented, dedicated candidates from our campus who will prove to be an asset for the respective organizations.

The Placement Cell does not restrict itself to the recruitment of students to only the corporate houses but also encourages taking up higher studies in the Prestigious Institutions. Wipro Technologies which recruited seven students has offered them an M.S. degree from BITS, Pilani. We aim at the overall growth of the students both academically and professionally.

Corporate houses recruit students from St. Philomena's College

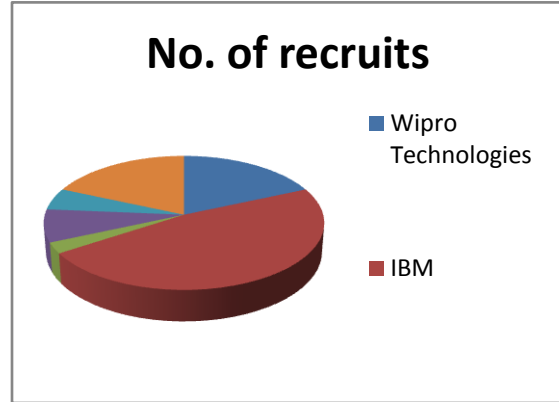

The Placement Cell of St. Philomena's college has taken a giant leap this year. St. Philomena's college has marked its place in this era of new media by modernizing its recruitment process by launching an official website which is benefitting all the students in way or another. This website is a team effort made by both the placement cell and the students. The response towards this new launch have been overwhelming as this portal enables the students to access the recruitment registrations and further directions regarding it even while at home.

St. Philomena's has always stayed ahead in the process of recruitments of fresh talents. This year corporate houses like IBM recruited practitioners for voice process, Northern Trust Bank selected Analysts, SysInformation Healthcare Pvt. Ltd. offered jobs to process executives, South Indian Bank recruited Probationary clerks, Goan Institute of communicative English have hired English Language Trainers. This Placement Cell stands out from the rest mainly because along

with all the recruitments for the corporate houses, it also encourages the students to take up higher education in Prestigious Institutions like an M.S. degree from BITS, Pilani offered to students who got recruited in Wipro Technologies. Placement season is yet in the motion, because a huge number of industries are approaching for 2014 passing out students.

Students who have been recruited in various campus drives conducted recently are seen with College Principal, Rev. Fr. Leslie Moras, Vice Principal, Rev. Fr. Bernard Prakash, Placement Cell Convenor, Prof. Sujatha Devi and Placement Co-ordinator Mrs. M. Farha.
