**COVID-19 PANDEMIC-IMPACTS & RESPONSES**

**Date: 3<sup>rd</sup> August 2021 to 6<sup>th</sup> August 2021**

**Concept Note:**

India being one among the large countries with unique diversity and heterogeneous population presents multi culture, caste system, different races, languages and religion etc. Since independence, the country has achieved all-round development through various plans, policies and programs offered by the government & allied organizations.

The novel human corona virus disease 2019 abbreviated as COVID-19 by WHO, Where 'CO' stands for 'corona,' 'VI' for 'virus' and 'D' for disease has become the fifth documented pandemic since the 1918 flu pandemic. It was first reported in Wuhan, China and subsequently spread worldwide. This highly contagious virus was officially named severe acute respiratory syndrome corona virus 2 (SARS-CoV-2) spreads rapidly and continuously in the human population. The COVID-19 pandemic has proven to be more than just a threat to our health; it has become a disruption which profoundly affected every segment of society and significantly altered the well-being of entire strata's and communities across the globe. The pandemic has multifaceted effects related to human suffering, economy, psychological levels, and environmental, social domains and on every aspects of life with social deviances being no exception.

At this crisis, academic discussions through collective efforts are required to protect people and society. This web series is an initiative to provide a platform for sharing ideas and experiences. In this context webinar series is organized to convey comprehensive analysis of the impact and responses of COVID-19 outbreak on the socio-psychological and social deviances in the society. The knowledge generated through collective discussions, debates and academic research could be utilized for the betterment of society.
