Faculty Development Programme (FDP)

on

“Promoting Research among Academicians”

Date: 22nd June to 28th June 2022

Introduction:

The Faculty Development Programme (FDP) on 'Promoting research among Academicians' is designed to promote research among teaching faculty of the College by imparting knowledge of research skills, culture, research methodology and application of scientific tools and the benefits of the research programmes which are relevant for scientific endeavors during the academics. This programme will try to provide exposure and insights into research among all the under graduate and post graduate faculty members from the science and social science stream of our College. The core objective of this workshop is to help the participants to understand the essential skills required to conduct scientific research.

Objectives:

1. To promote research attitudes among the participants.
2. To help the participants to identify and define a research problem.
3. To help the participants to design a distinct methodological framework for their research work.
4. To help the participants to learn and adapt to the use of advanced statistics tools and software for data analysis and scientific writing.
5. To make the participants well aware of developing a research proposal, publication of articles and its benefits.
