

This is not a function of insulin

- Decreasing glycogenolysis
- Lipogenesis
- Gluconeogenesis
- Glycogenesis

This hormone is responsible for “fight-or-flight” response

- Thyroxine and melatonin
- Insulin and glucagon
- Epinephrine and norepinephrine
- Oestrogen and progesterone

This is not an endocrine gland

- Adrenal
- Pituitary
- Lacrimal
- Thyroid

What gland is located just superior to the kidneys?

- Pituitary.
- Adrenal.
- Pancreas.
- Ovaries

The secretions from which of these glands differs between males and females?

- Adrenal
- Parathyroid
- Gonadal
- Pancreas

Insufficient levels of thyroid hormone in adults cause

- Goiter
- Tetany
- Myxedema
- Cretinism

Chemical messengers secreted by ductless glands are called

- Lymph
- Platelets
- Plasma
- Hormones

What is the precursor of steroid hormone?

- Protein
- Cholesterol
- Carbohydrate
- Lipid

Which of the is a fat soluble hormone?

- Amine hormone
- Peptide hormone
- Thyroid hormone
- Protein hormone

Which of the following is protein hormone?

- Oxytocin
- Insulin
- TSH
- Antidiuretic hormone
