

# Title: Multiple choice question of culture media

1. Which of the following is used as a solidifying agent for media?  
a) Beef extract b) Peptone c) Agar d) Yeast extract
2. Which of the following is a rich source of B vitamins?  
a) Peptone b) Yeast extract c) Beef extract d) Agar
3. The concentration of agar present in solid media is \_\_\_\_\_  
a. 1.5%-2.0 % b. 2.0% – 3.0% C. 0.5%-1.0% d.0%
4. The concentration of agar present in semisolid media is  
a. 1.5-2.0 % b. 2.0 %– 3.0% C. 0.5%-1. 0% d.0%
5. The media which consist only of natural obtained source is known as  
a. Natural media b. Semisynthetic media c. Synthetic media d. Compound media
6. The media which allow to grow only one type of species is  
a. Enriched media b. Selective media c. Both of these d. None of these
7. An example for indicator media is  
a. Blood agar media b. Peptone liquid media c. Transport media d. None of thses
8. The media used for the temporary storage of specimens being transported to the laboratory for cultivation is  
a. Indicator media b. Transport media c. Both of these d. None of these
9. The media which changes it's colour as the microbes growing in it is called as  
a. Indicator media b. Transport media c. Storage media d. None of these
10. The media which is used for storage of microbial culture is called as  
a. Indicator media b. Transport media c. Storage media d. None of these
